

Remarks

In the interest of clarity, the paragraph numbers hereafter match the paragraph numbers in the Office Action.

1-7. The Office Action indicates that there are two inventions claimed in the current application including a first invention claimed in claims 1-24, 193-217, 219-233 and 238 and a second invention claimed in claims 234-237.

Applicant hereby elects the first set of claims to prosecute in the present application without traverse.

Applicant has amended claim 234 to now depend from claim 1. The balance of the claims 235-237 associated with the second claimed invention depend from claim 234 and therefore the rejection based on multiple inventions should be withdrawn.

Applicant also amended some of the claims to eliminate inadvertent errors identified therein.

Applicant has introduced no new matter in making the above remarks and amendments. In view of the above remarks and amendments, Applicant believes claims 1-24, 193-217 and 219 through 238 of the present application recite patentable subject matter and allowance of the same is requested. No fee in addition to the fees already authorized in this and accompanying documentation is believed to be required to enter this amendment, however, if an additional fee is required, please charge Deposit Account No. 17-0055 in the amount of the fee.

Respectfully submitted,

CARLOS DE LA HUERGA
